Hi David,

Please see specific questions below from a reporter at the VC Reporter. Her questions are specific, but I'm not sure if we can answer them. Or, if we should send her to DOGGR.

Thanks!

Nahal

Thank you for getting back to me so quickly. I read over the reports you have me. They were very helpful. Thank you.

Two waste injection wells in Oxnard seem to be part of the EPA investigation. I was wondering if they were still a part of the investigation.

Some of aquifers on the Oxnard plain drift. I was wonder if the EPA investigation looks into that.

It appears that in Oxnard 55 cyclical steaming and SagD wells are part of the investigation.

The webpage you gave me yesterday summarized the the EPA project to look more thoroughly into cyclical steaming. I was wondering what prompted this, and if I could get more information

Hi Natalie,

Let me know if you have any follow up questions. I understand you called our library number. Let me know what information you need.

Best,

Nahal

Hi Natalie,

Thanks for reaching out. Here is a link to our site:
<http://www.epa.gov/region9/mediacenter/uic-review/index.html>

If you look in the resources box on the left hand side of the page you will find all of the documents that you are looking for.

Best,

Nahal
